| Plan Status | |
|--|----------------------|
| Current Plan Status | Plan Review Complete |
| Date This Status Became Current | Aug 14, 2019 |
| Next Annual Review Due By | Aug 31, 2020 |

A. Purpose Of The Emergency Action Plan

The Emergency Action Plan (EAP) is a way for your workplace to prepare and plan for a variety of emergency situations, e.g., medical emergencies, citywide disasters; power outages, hazardous chemical spills, fires, bomb threats, a civil disturbance, and earthquakes.

An Emergency Action Plan is required for each Administrative and Academic work space, and should be considered a part of every Department's basic health and safety responsibility. EAPs may be developed for an entire floor or area occupied by multiple departments, divisions, units, or labs; or may be written for a single unit/lab worksite.

It is important for staff to read and understand their work site Emergency Action Plan BEFORE an emergency occurs. Managers should share safety information with faculty, staff, and students; brief all new personnel as they join the department; and POST copies of the Emergency Action Plan in accessible locations. Department Managers are responsible for the annual review and update of their Emergency Action Plan(s).

The Emergency Action Plan can be organized by worksite (office, lab), by Division or Department, and by floor or building. Collaboration between neighboring workspaces on the same floor to develop a single "Neighborhood" EAP is encouraged.

For additional information regarding the Emergency Action Plan requirement, please review the Emergency Action Plan Team Manual at <http://police.ucsf.edu/emergency-management/emergency-action-plan-eap>.

D. Instructions For Reporting Emergencies

EMERGENCY:

9+911

To reach UCSF police, dial 9+911 from any campus phone or 415/476-6911 from a non-campus phone.

Non-Emergency:

415/476-1414

The caller should provide as much information about the emergency as possible, including locations affected, any health and safety issues, missing persons, or other pertinent and relevant information.

For large scale or regional disasters where communications are impeded, such as a significant earthquake, please report situation status to the Status Collection Point (East Zone - Koret Quad, West Zone - Emergency Shed at LPPI).

Last Update: August 28, 2018

E. Instructions For Evacuation

- Cease all work immediately upon notification of the event (by alarm or direct notification)
- Shut down critical equipment in the area, if possible, without placing yourself or your work or research at risk
- Take essential personal belongings, if safe to retrieve items
- Close doors but do not lock them
- Proceed to the nearest stairwell (noting any injuries, hazards or personnel remaining in the building) - DO NOT attempt to use elevators
- Go to the floor of the building that exits to street level and exit the building immediately
- For high rise buildings, evacuate 4 floors down or until you no longer hear fire alarms
- Report to your Emergency Assembly Area
- Check in with your Floor Warden/designee to be accounted for and to report any issues
- Keep entrances, sidewalks, driveways and fire lanes clear
- Do not re-enter the building until you have been notified by Security, emergency response personnel, or Floor Wardens that it is safe to do so – DO NOT enter the building simply because the alarm has been silenced!
- If you are unsure it is safe to re-enter a building, ask emergency response personnel or call 415-476-1414

F. Instructions For Sheltering In Place

F. Instructions For Sheltering In Place

There may be situations when it is safest to stay where you are and avoid any uncertainty outside. This can be due to hazardous material releases, fires, explosions, or chemical spills. If a shelter in place order is given employees should follow these procedures to ensure their safety.

How to choose a room to shelter in place:

- Select a small, interior room, with no or few windows
- Choose a room where exterior doors and windows close completely and can be locked
- It is ideal to have a hard-wired telephone in the room you select (cell phone equipment may be overwhelmed or damaged in an emergency)

Additional Notes:

- Lock all available doors
- Turn off all fans, heating and air conditioning systems, if feasible
- Inspect emergency kits and supplies
- Updates on the situation and the 'all-clear' message may be communicated via WarnMe, overhead paging system, or by emergency response personnel
- Be prepared to improvise and use what you have on hand to seal gaps so that you create a barrier between yourself and any contamination

Last Update: August 28, 2018

G. Instructions For Securing In Place

There may be situations when a location should be secured to prevent entry. This will usually be due to the possible presence of a violent intruder. If a secure in place order is given, employees should follow these procedures to ensure their safety.

How to choose a room to secure in place:

- Select a small, interior room, with no or few windows
- Choose a room where exterior doors and windows close completely and can be locked
- It is ideal to have a hard-wired telephone in the room you select (cell phone equipment may be overwhelmed or damaged in an emergency)

Additional Notes:

- Lock all available doors
- Silence cell phones
- Do not congregate in one portion of the room
- Avoid areas that can be seen from outside the room
- When first responders arrive, follow instructions and keep hands visible

Last Update: August 28, 2018

H. Procedures For Specific Scenarios

(1) MEDICAL EMERGENCY

- If you are injured or have a medical emergency in the workplace, call 9+911 or 415/476-6911 immediately if you are able. If you are unable to use the phone, verbally call for help. Anyone who hears you should summon help by calling 9+911 or 415/476-6911.
- If you witness an injury or medical emergency in the workplace, immediately assist the injured if it is safe for you to do so. Then call 9+911 or 415/476-6911 as soon as possible from a safe location. Become familiar with emergency notification procedures.

(2) FIRE

A building occupant is required by law to evacuate the building when the fire alarm sounds.

- If you see a fire and the alarm is not sounding, immediately notify the fire department by activating the nearest manual alarm pull station. Call 9+911 or 415/476-6911 from a safe location to provide details of the situation.
- If trained, able and safe (with a sure and safe exit), use a portable fire extinguisher to extinguish the fire. Evacuate if one extinguisher does not put out the fire.
- Otherwise, evacuate the building as soon as the alarm sounds and proceed to the EAA.
- On your way out, warn others.
- Use stairs only; do not use elevators.
- Move away from fire and smoke. Close doors and windows if time permits.
- Check for heat - touch closed doors (NOT handles). Do not open them if they are hot.
- Enter the building only when instructed to do so by emergency responders.

H. Procedures For Specific Scenarios

(3) EARTHQUAKE

(a) Inside the Building:

- Duck under the nearest sturdy object and hold onto it until the shaking stops. If you are not near a sturdy object, make yourself as small as possible and cover your head and neck.
- If you stand in a doorway, brace yourself against the frame and watch out for a swinging door or other obstruction.
- Avoid windows, filing cabinets, bookcases, and other heavy objects that could fall or shatter.
- Stay under cover until the shaking stops, then leave the building and go to the EAA or another designated location. Report to your roll taker.
- If safe, before evacuating, stabilize any laboratory procedure that could lead to further danger. (Example: turn off gas valves or electrical equipment.)

(b) Outside the Building:

- Move away from trees, signs, buildings, electrical poles and wires, fires, and smoke.
- Protect your head with your arms from falling debris.
- Proceed to the EAA or a pre-designated alternate assembly area. Report to your roll taker.
- Stay alert for further instructions.

(4) DEMONSTRATION OR CIVIL DISTURBANCE

- Most demonstrations are peaceful and if one is conducted near or in your building, carry on business as usual. Avoid provoking or obstructing demonstrators. Should a disturbance occur, call Police for assistance.
- If protestors enter your building, let them. Try to carry on business as usual. If the noise becomes too great, or the crowd too large, feel free to close and lock your office doors and/or windows - this is a departmental decision.
- Do not close your buildings unless the Police advise you to. If it becomes necessary to evacuate, follow directions from Police. Proceed to the EAA and wait for additional instructions.

(5) CRIMINAL OR VIOLENT BEHAVIOR

- Assist in making your work location a safe place by being alert to suspicious situations or persons and reporting them as outlined below. See something, say something - call local Police.
- If you are the victim of, are involved in, or a witness to any violation of the law such as assault, robbery, theft, overt sexual behavior, etc. call Police as soon as possible. If safe, wait for Police in order to provide them with more information.

(6) SUSPICIOUS PACKAGE

- A suspicious-looking box, package, object, or container in or near your work area may be a bomb or explosive material.
- Do not handle or touch the object.
- Move to a safe area and call the Police immediately at 9+911 or 416/476-6911. Use a telephone in a safe area.
- Do not operate any power switches, and do not activate the fire alarm.

(7) EXPLOSION

If there is an explosion:

- Take cover under sturdy furniture, or leave the building if safe and directed to do so by emergency responders.
- Stay away from windows.
- Do not light matches.
- Move away from the hazard site to a safe location.
- If instructed to evacuate, use the stairs only; do not use the elevators.

(8) BOMB THREAT

If you receive a bomb threat (via the telephone):

- Stay calm and keep your voice calm.
- Pay close attention to details. Talk to the caller to obtain as much information as possible.
- Write down the date and time of the call.
- Take notes. Pay attention to details. Ask as many questions as possible:
 - When will it explode?
 - Where is it right now?
 - What does it look like?
 - What kind of bomb is it?
 - Where did you leave it?
 - Did you place the bomb?
 - Who is the target?
 - Why did you plant it?
 - What is your address?
 - What is your name?

Listen to the caller's voice. See if you can identify

- Speech patterns (accent, tone)

H. Procedures For Specific Scenarios

- Emotional state (angry, agitated, calm, etc.)
- Background noise (traffic, people talking and accents, music and type, etc.)
- Age and gender

Write down other data:

- Date and time of call
- How threat was received (letter, note, telephone)

Call the Police and relay the information from the bomb threat telephone call or bomb threat letter. Follow the Police's instructions.

Check your work area for unfamiliar items. Do not touch suspicious items; report them to the Police at 9+911 or 415/476-6911. If you are told by emergency responders to evacuate the building, evacuate immediately.

(9) HAZARDOUS MATERIAL RELEASE

(a) For Non-Users Of The Hazardous Material: If a hazardous material is released or spilled near you and you are not a user nor knowledgeable about hazardous materials, call Police immediately and move away from the release area.

(b) For Users Of The Hazardous Material: If you are a hazardous material user and you cause a release of a hazardous material, you should know the emergency procedures for cleaning up a hazardous spill. All hazardous materials users should be trained on proper use and storage of hazardous materials, including proper procedures for preventing spills and emergency procedures when a spill occurs. If you have not been trained and don't know what to do, leave the area and warn others. When you are at a safe location, call Police immediately.

(10) UTILITY FAILURE

- In the event of a major utility failure, notify Facilities Services Customer Call Center at 415/476-2021 (or the building owner, if you are off-campus in a leased space).
- Evacuate the building if the fire alarm sounds and/or upon notification by Police.
- In laboratory buildings, fume hoods do not operate during a power outage and many laboratories should not be used until ventilation is properly restored.

(11) ELEVATOR FAILURE

If you are trapped in an elevator, use the emergency telephone inside the elevator to call for assistance or press the elevator alarm inside the elevator to signal for help.

(12) FLOOD OR PLUMBING FAILURE

- Cease using electrical equipment.
- Evacuate the building if necessary and proceed to the EAA.
- Call Facilities Services Customer Call Center at 415/476-2021 if necessary.

(13) STEAM LINE FAILURE

- Avoid live steam. Serious burns can result.
- Call Facilities Services Customer Call Center at 415/476-2021. If leased space, call the building owner or contact person.

(14) GAS SMELL

If you smell natural gas:

- Cease all operations immediately.
- Do not operate light switches.
- Evacuate as soon as possible.
- Call Police at 9+911 or 415/476-6911.
- Call Facilities Services Customer Call Center at 415/476-2021. If your space is leased, call the building owner or contact person.

(15) VENTILATION PROBLEM

If you smell odors coming from the ventilation system:

- Immediately notify Facilities Services Customer Call Center at 415/476-2021. If in leased space, notify the building owner or contact person.
- If necessary, cease all operations immediately.
- If necessary, evacuate the building and proceed to the EAA.
- If smoke is present, pull the fire alarm, then call Police at 9+911 or 415/476-6911 from a safe location.

MISSION HALL Sixth Floor Emergency Guidelines

FIRE

IF THE FIRE ALARM IN THE BUILDING SOUNDS:

- **Leave your workstation immediately.** If you are in a focus, huddle or conference room, be sure to close the door behind you (doing so may help contain the fire). If you do not hear the fire alarm, but someone from the Emergency Response Team tells you to leave, please follow his or her instructions.
- **Evacuate the building using one of the stairwells.** Do not take the elevator.
- **Emergency assembly area is Koret Quad.**

IF THE AREA FILLS WITH SMOKE:

- Stay calm
- Drop to hands and knees
- Crawl along wall to nearest exit
- Check door frame and knob for heat prior to opening door. If cool, proceed to stairwell. If hot, use an alternate exit.

EARTHQUAKE

EARTHQUAKE EMERGENCY GUIDELINES

- **Duck** down under a sturdy structure, such as a desk or table, or kneel down against the wall.
- **Cover** your head with arms and tuck down to knees.
- **Hold** the position until the earthquake stops.
- Move away from windows, shelves, cabinets or hanging objects.
- Assess yourself for injury and your area for imminent danger.
- Do not turn on or off any lighting or electrical devices.
- Do not use elevators.
- Listen for further instructions from ERT members, PA system, *Floor Wardens* or security personnel.

It is suggested each department store the following items in a central location known to employees:

1. Food & water for three (3) days minimum (7-day supply is ideal)
 2. Earthquake or emergency survival kits
 3. Employee prescribed medication and extra eyewear
 4. Heavy-duty shoes and extra clothing
 5. Flashlight and batteries
 6. List of emergency phone numbers of family members
- Mission Hall Security: 415.476.5190
 - UCSF Police: 9+911 (from any campus phone)
 - UCSF Police, Mission Bay: 41.476.8871
 - UCSF Police: 415.476.6911 (non-campus phone)
UCSF Police-non-emergency: 415.476.1414

ACTIVE SHOOTER

IF YOU HEAR GUNSHOTS DECIDE YOUR BEST COURSE OF ACTION

- Can you safely escape?
- Is there a good place to hide?
- Be mindful, not fearful.
- Trust your instincts.
- Leave belongings behind.

Hide Out

- Find a hidden location.
- Avoid places that trap or restrict movement.
- Find a room that locks and blockade the door.
- Be silent. Turn off the lights.
- Silence cell phones but don't turn them off.

Help Out

- Help others stay calm.
- Help the injured.
- Call police for help. Don't assume someone else is calling.

Take Out (last resort)

- Act as a team. Commit completely to your action plan.
- Do whatever is necessary to neutralize the situation.

WHEN LAW ENFORCEMENT ARRIVES:

- Do not approach officers.
- Do not point, scream or yell.
- Give location, description and number of shooters.
